#### Technical Specifications Footnotes

<sup>1</sup> SoundGuard Digital Plantronics owns sophisticated algorithms including: Protects against Acoustic Shock by limiting sounds to below 118 dBA; G616 anti-startle protection that limits the noise level to below 102 dB SPL and is therefore compliant to the Australian Communications Industry Forum (ACIF) G616 recommendation; Average daily noise exposure measures and controls sound to prevent the average daily sounds exposure from exceeding 80 dBA or 85 dBA time-weighted average (TWA). <sup>2</sup> Requires Poly Lens Desktop App to enable SoundGuard Digital features. <sup>3</sup> Voyager Office Base is available as an accessory and is sold separately. <sup>4</sup> Online indicator adjustments require a setting change via Poly Lens or Plantronics Hub.
