TapMstBaseAsu Logitech BASE Microsoft Teams Rooms (no AV) with Tap + ASUS® NUC

Add Logitech Rally Bar Mini, Rally Bar, or other USB conference camera to this Microsoft Teams Rooms kit with Logitech Tap and ASUS® NUC mini PC. Pre-configured and Certified for Teams, this kit also includes Logitech JumpStart resources to streamline deployment and a Logitech Compute Mount with cable retention. The 10.1" Logitech Tap touch controller features commercial-grade cabling with cable retention, one-touch join and Proximity Join, wired and wireless content sharing, and center-of-room touch control for a consistent user experience that's always ready for the next meeting.

FEATURES:

- Add a USB conference camera to this pre-configured bundle with an ASUS® NUC mini PC and Logitech Tap to deploy Microsoft Teams Rooms throughout the workplace.
- Logitech Tap offers touch control that's always ready for the next meeting, featuring a generous 10.1" touch screen, a range of optional mounts, and commercial-grade cabling with robust cable retention.
- Pre-configured for quick deployment, the Teams-certified ASUS® NUC mini PC provides outstanding performance in a compact form factor.
- To keep connections tight, Tap features a comprehensive strain relief and retention system, hidden entirely within its enclosure.
- The included Cat5e Kit with 10 meters of cable offers the flexibility to locate Tap nearly anywhere in meeting rooms and allows customers to supply their own cabling for runs of up to 40 meters in total length.
- Logitech Compute Mount makes it easy to install a mini PC under a table, in a credenza, or behind a display. A robust cable retention bracket to keep connections tight.

- Includes access to Logitech JumpStart resources (90 days) to support initial configuration and integration of Microsoft Teams Rooms.
- Monitor and manage your meeting room devices from the Teams Admin Center. Plus, get business insights into how your rooms are being used with Logitech Sync.
