

# VESA-P1

---

## ▫ Vesa P1 bracket

### Mount your PC behind the screen

The VESA-P1 Bracket saves desk space, by mounting the PC on the back stand of the P1

Monitor.

This allows for a clutter free desk!

### Efficient cable management

Unclutter your cables in combination with the USB docking capabilities of the P1 Monitor and the Vesa Bracket. All connections will be behind your screen and off your desk.

With less cables and smaller cables being an option, this reduces unnecessary clutter on your desk.

## What's in the box

---

## Sustainability

---

- Environmental and energy: RoHS, Lead-free, Mercury Free
