Neomounts by Newstar DS60-425BL1 full motion monitor arm desk mount for 17-27" screens - Black

The Neomounts by Newstar DS60-425BL1 is a full motion desk mount for screens up to 27" with a maximum weight capacity of 8 kg. The versatile tilt (120°), rotate (360°) and swivel (180°) technology allows you to adjust the mount to the optimal viewing angle for your screen. Additionally, the mount has manual height and depth adjustment to create the perfect working position.

Due to the short T-Rex® upper arm, only minimal depth is required when placed near a wall or separation panel. The smart internal cable management system ensures orderly routing of the cables. The DS60-425BL1 is suitable for screens that meet VESA hole pattern 75x75 or 100x100 mm. Neomounts offers various optional VESA adapter plates for deviating hole patterns. The DS60-425BL1 is equipped with an Easy-release VESA system for easy installation and comes with both desk clamp and grommet.

The packaging of the DS60-425BL1 is 100% plastic free and entirely made from cardboard and paper.
