EcoTank ET-2750

Meet Epson's next generation of EcoTank. This 3-in-1 provides a LCD screen, double-sided printing and three years' worth of ink [1].

Cartridge-free printing
Go longer between refills with EcoTank. It uses ultra-high-capacity ink tanks to completely remove the need for cartridges.

Ultra-low cost
Three whole years[1] – that's how long you could go without buying more ink for the ET-2750. Giving you an extremely low cost-per-page, it produces 14,000 pages in black and 5,200 in colour with the included ink[3].

Discover the next generation of EcoTank
With the ink tank now housed at the front, EcoTank is more compact and easier to use than ever before. Protecting you against leaks and spills, it features an enhanced ink filling system engineered for mess-free refills. The new bottles also incorporate a mechanism to ensure that only the correct colours can be inserted. Thanks to the front ink level display, it's now easy to see when it's finally due for a refill. And with pigment black and dye colour inks, it produces prints with crisp, clear text and vivid colours.

Print from almost anywhere
With Wi-Fi and Wi-Fi Direct, you can send documents to print from smart devices using the Epson iPrint[4] app. Additionally, its 3.7cm LCD screen and SD card slot make it easy to print without a PC.

Quality results
With a Micro Piezo printhead, EcoTank provides a reliable printing solution which is backed by a three year warranty (upon registration). It can also be relied upon to produce double-sided prints fast.

* Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 24712 with replacement sets of ink. Quoted yields are NOT based on ISO/IEC 24711. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower.

1. Based on an average print volume of 140 pages per month and considering the lowest yield produced from the first set of inks.
2. 2.Based on Epson calculations, average cost per page saving and average number of inkjet cartridges required to print the same number of pages as EcoTank "102" and "104" ink bottles. Comparison between average yield (A4 prints of ISO/IEC 24711) of EcoTank "102" and "104" bottles and the genuine consumables used within the 50 best-selling inkjet cartridge printers (for Germany, France, UK, Spain and Italy Apr-19 – Mar 2020). Cost per page calculated with reference to the average printing costs for EcoTank "102" and "104" bottles and amongst these top 50 models, calculated by dividing the relevant bottle/cartridge sales revenue and total yield by unit sales (for Germany, France, UK, Spain and Italy Apr-19 – Mar 2020).
