KEYSONIC **KSK-8022MacU**
Wired aluminium full-size keyboard for macOS®

Elegant modern design

The timeless design of the sturdy aluminium body of the KSK-8022MacU gives any environment a touch of elegance. The modern, white keys give the picture an additional welcoming light and the anti-slip rubber feet grant a tight hold without any unwanted interruptions.

For macOS

Apart from symbols, the numeric keypad and the well-known hotkeys, 13 additional multimedia keys have been added to make everyday use of macOS® much easier. Key spacing and pressure points for each key have been carefully selected to provide the best possible comfort for 10-finger typing.

Radio-free functionality

The wired KSK-8022MacU ensures reliable input at all times, even on radio-free computers. The 1.80 m long USB cable provides sufficient flexibility when it comes to positioning the keyboard. Needless to say, a dongle is included that makes the keyboard accessible for ports like Thunderbolt™ 3 via USB Type-C™.
